Features and Benefits

The OASIS SB GWAC is the right choice! It is designed to meet all your technical services and solutions needs and to assist you in reaching your small business procurement goals. OASIS SB key features and benefits include:

▶ Features

- Pre-competed, multiple-award contracts – OASIS SB awardees are vetted and pre-screened
- Five-year base with one, five-year option
- Full gamut of contract types: fixed price, cost reimbursement, time and material, labor hour, and a mix thereof
- Robust functional area coverage
- No program ceiling (estimated value is \$60 billion)

▶ Benefits

- Enables federal clients to earn Small Business credit
- Short procurement lead time
- Pre-award and post award scope reviews
- Free training and support for OASIS GWAC Delegation of Procurement Authority (DPA)
- Tiered access fee ranging from .1 to .75 percent
- Reduce the duplication of agency contracting efforts

Synectic Solutions Inc. (SSI) and GSA One Acquisition Solution for Integrated Services (OASIS) Small Business

Flexible and Comprehensive. The OASIS SB Government-wide Acquisition Contract (GWAC) is designed to address any federal defense or civilian agency's need for service requirements and can integrate six core professional service disciplines and ancillary services/products. OASIS SB is a family of seven Multiple Award, Indefinite Delivery, Indefinite Quantity (MA-IDIQ) task order contracts (referred to as "Pools") that are based on 28 NAICS Codes. OASIS SB provides an efficient, flexible way to order multi-discipline professional services worldwide.

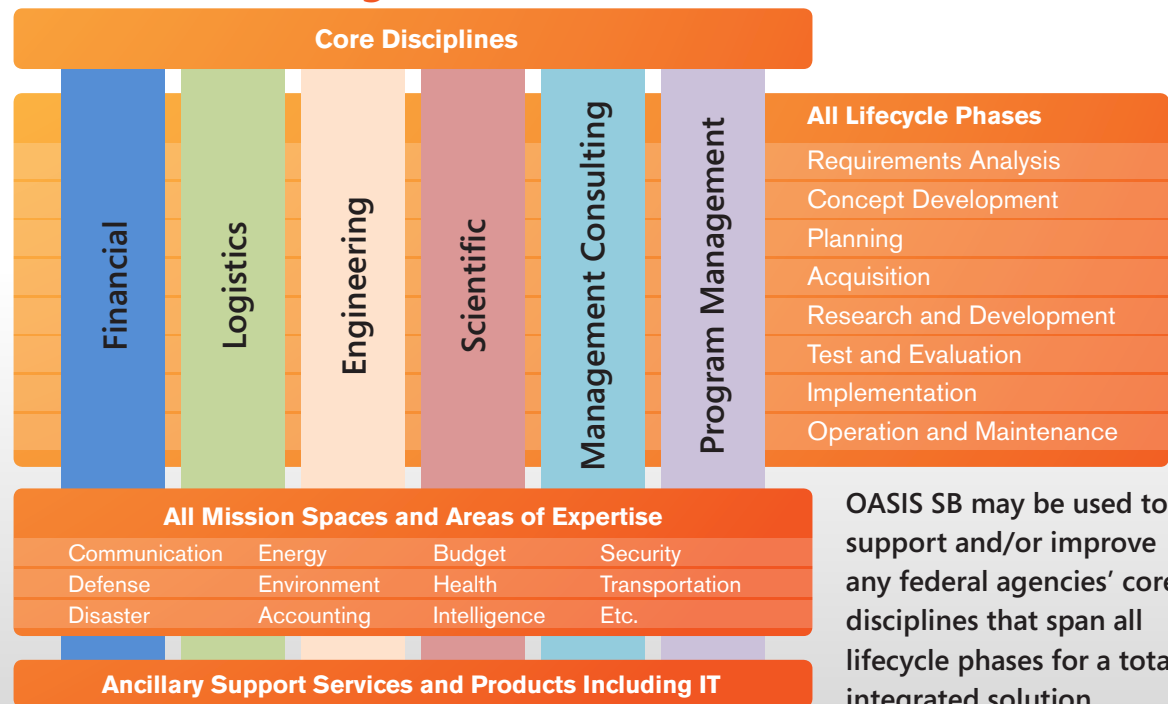

SSI supports OASIS SB Pools 1 and 3 (under \$14M Technical, Management and Administrative NAICS Codes and under \$35M Engineering Services NAICS Codes respectively) which cut across the core disciplines of the OASIS SB program architecture. We have been providing these services and solutions to federal agencies since 1997. We understand the GSA contracting environment and fully embrace the concept of partnering with our customers and GSA.

GSA OASIS Small Business

OASIS SB Program Architecture

OASIS SB may be used to support and/or improve any federal agencies' core disciplines that span all lifecycle phases for a total integrated solution.
